Company

EBAKI XXI, S.A. was founded in 1997 as a global project in the sector of timber processing industry. A project based on the integration of the whole sectors in the forest chain with the target of an optimal and sustainable of the forest resources. We compete in packaging, construction, furniture in kit and sawn timber markets..

Our **TARGET** is to develop a competitive business project in the field of the timber processing industry, meeting the needs of our customers practising the following principles:

- ✓ Quality
- ✓ People.
- ✓ Leadership.
- ✓ Development
- ✓ To respect the environment

In the heart of a forest managed following the principles of the sustainable forest management, EBAKI XXI, S.A. carries out activities related to timber transformation using natural renewable resources and with full respect for environment
